

CANTABRIAN WATER JUMP BARRIER

PRODUCT DATA

- Ground fittings are supplied as two 90mm external diameter galvanised ground sockets complete with lids.
- The legs comprise of two 76mm diameter bottom galvanised uprights and two galvanised top uprights 90mm diameter with three adjustable heights for men's, women's and Youths heights
- When height is set on the pegs, pinch bolts are tightened to make the barrier rigid on the uprights eliminating play in the telescopic uprights. Complete with fixing screws for wooden barrier.
- Standard 3.66m (12ft) barrier is available.
